STATE CLEARINGHOUSE

---

# NEWSLETTER

**September 1 through 15, 2000**

## STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period September 1 through 15, 2000.

### CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joung and Karen Fowler (for projects in Northern California)  
Scott Morgan and Brian Grattidge (for projects in Southern California)

### CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

**State Clearinghouse**  
**P.O. Box 3044**  
**Sacramento, CA 95812-3044**

### INFORMATION AVAILABLE ON-LINE

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

# Federal Notices

## Intergovernmental Review Notices (September 1<sup>st</sup> - 15th, 2000)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

**AGENCY:** Federal Energy Regulatory Commission

**CONTACT:** John E. Estep

**TELEPHONE:** N/A

**ADDRESS:** Federal Energy Regulatory Commission  
888 First Street N.E.  
Washington, D.C. 20426

**DESCRIPTION:** On August 23, 2000, the El Dorado Irrigation District, licensee for the El Dorado Hydroelectric Project (FERC No. 184), filed a Plan to Notify Motorists on Highway 50 of Potential Slow-Moving Construction Vehicles. In the Commission's Environmental Assessment states that Highway 50 is a major route for people traveling to and from Lake Tahoe, and limited sight lines along much of the route could represent a safety hazard to motorists if slow-moving construction vehicles are suddenly encountered. The EA lists the following measures that should be considered for inclusion in the plan: signage, flaggers, time restrictions for the transport of heavy equipment, and public notifications.

Washington, D.C. 20426

**DESCRIPTION:** Mr. Willie R. Taylor, Director Office of Environmental Policy and Compliance U.S. Department of the Interior had submitted a letter in January 27, 2000 about the proposed relicensing of this project, you recommend six measures to protect fish and wildlife. In the draft environmental assessment of Pacific Gas and Electric Company's relicense application, issued on August 29, 2000 we consider your recommendations but do not recommend adopting four them they are as follows: 1. Develop and implement a habitat management plan for those project lands where grazing is continued. 2. Develop and Implement a water quality monitoring plan to ensure that termination of the grazing leases and the recommended habitat management plan improve water quality. 3. Release a year-round flow of 80 cubic feet per second in the hat Creek No. 1 bypassed reach. 4. Release a flow of 50 cubic feet from November 1 through March 31 and a flow of 80 cfs from April 1 through October 31 to the Hat Creek No. 2 bypassed reach. Please remember that, under sections 313(b) and 10(a) of the FPA, we must provide the Commission with substantial evidence that any measure our staff agrees on would adequately protect or enhance fish or wildlife resources and that any project adopted would reflect equal consideration of the beneficial public uses of the waterway as set forth in the FPA.

888 First Street N.E.  
Washington, D.C. 20426

**DESCRIPTION:** On August 23, 2000, the El Dorado Irrigation District , licensee for the El Dorado Hydroelectric Project (FERC No. 184), filed a Portage and Signage Plan. The District states the reconstruction of the diversion dam is planned to occur when flows in the South Fork of the American River are well below the flow amounts required for boating. Since the District does not expect boaters to be present during the reconstruction period, it concludes that a temporary portage is not necessary. However, as a precaution, the District proposes to post signs at two locations – one near the Kyburz Bridge, a common river access point, and the other about 1,000 feet upstream of the diversion dam site – to warn potential boaters of the

construction activities downstream, provide information on the expected construction schedule, indicate alternative access points, and provide the phone number of a District representative to contact with questions. Additionally, the District would post similar signs at popular road-side stops, such as Kyburz General Store, to inform travelers and nearby residents about the temporary river blockage and river access options.

**ADDRESS:** Federal Energy Regulatory Commission  
888 First Street N.E.  
Washington, D.C. 20426

**DESCRIPTION:** In the Commission's Environmental Assessment for the El Dorado Irrigation District license amendment application, staff recommended that the District develop a plan to monitor and appropriately lessen the noise generated by construction equipment or activities. According to the Plan, District would implement the following measures to reduce the effects of construction noise: 1. During materials transport and construction activity periods, no vehicle engine will be left idling for more than five minutes. 2. No construction traffic will occur through Sand Flat Campground. 3. The District will notify the homeowners' association of a recreation residence tract at least two weeks in advance of any materials transport and construction activities within 0.5 mile of the tract; and the District will post a notice to recreation tract residents indicating the nature, timing, and duration of all materials transport and construction activities occurring within 0.5 mile of the tract.

**DESCRIPTION:** In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380 (Order No. 486, 52 .R. 47897), Office of Energy Projects staff has reviewed the application for, and prepared the enclosed Draft Environmental Assessment on the relicensing of the Hat Creek Hydroelectric Project (No. 266). The Hat Creek Hydroelectric Project is an existing operating hydroelectric facility located on Hat Creek near the town of Cassel, in Shasta County, California. The project occupies 6.57 acres of the Shasta National Forest. The project consists of two developments with a combined installed capacity of 20 megawatts. PG&E, the current license, proposes to continue operating the project with environmental enhancements. No increased capacity is proposed.

**ADDRESS:** Federal Energy Regulatory Commission  
888 First Street N.E.  
Washington, D.C. 20426

**DESCRIPTION:** Mr. Wayne White, of Sacramento Field Office U.S. Fish and Wildlife Service, has sent in a federally threatened endangered species list. The Shasta crayfish and the bald eagle is listed as an endangered species. They are located in the vicinity of this project o Hat Creek in Shasta County. We address the project's effects in the draft environmental assessment and conclude that operating and maintaining the project, with our recommended measures, is "not likely to adversely affect" the Shasta crayfish and the bald eagle. Therefore, we do not believe that formal consultation regarding these two species is required.

**DESCRIPTION:** On August 23, 2000, the El Dorado Irrigation District filed a noxious weed control plan prior to the start of the reconstruction of the diversion dam. The plan states that all equipment will be thoroughly cleaned before entering and leaving the site to ensure that seeds from noxious weeds are not brought into the area. The licensee will notify the U.S. Forest Service at least 10 working days before moving each piece of equipment onto National Forest land. This notification will identify the location of the equipments' most recent operations, if that information is unavailable the equipment will be treated as if it were infested with noxious weeds.

**DESCRIPTION:** On June 27, 2000, Southern California Edison filed plans and specifications for resurfacing the Fairview Dam of the Kern River No. 3 Hydroelectric Project to repair spalled concrete and seal the surface with a protective coating. The Kern River No. 3 Hydroelectric Project is located on the North Fork Kern River, Salmon and Corral Creeks in Tulare and Kern Counties, California. The licensee proposes to divert the minimum flow required to be released immediately below the dam to a point about 200 feet downstream during the dam repair work. This flow diversion is necessary in order to conduct the dam repair work in dry conditions. The licensee proposes to start the dam repair activities in late August and anticipated completing the work in 8-10 weeks.

Documents Received during the Period: 09/01/2000 - 09/15/2000

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Friday, September 01, 2000</u></b>			
2000091005	Marina High School Sports Field Nighttime Lighting Huntington Beach Union High School District Huntington Beach--Orange Proposed installation of ten (10) poles and lights to provide night time lighting of existing practice fields at Marina High School. Hours of operation of lights will be limited to Monday through Friday, no later than 10:00 pm. Measures have been incorporated into project design to minimize light and glare impacts.	<b>Neg</b>	10/02/2000
2000091006	Hazardous Waste Facility Storage Permit, Naval Air Weapons Station, China Lake Toxic Substances Control, Department of Ridgecrest--Kern Renewal of a Hazardous Waste Storage Permit. Hazardous waste will be stored in two buildings and four tanks for a period of up to one year.	<b>Neg</b>	10/02/2000
2000091009	Moore Residence-EIA 00-13/MF 504 Imperial Beach, City of Imperial Beach--San Diego One dwelling unit on 5,000 square foot lot of a 9,000 square foot parcel at 816 Ocean Lane.	<b>Neg</b>	10/02/2000
2000091010	Address Implementation of the Creekside Village Specific Plan Murrieta, City of Murrieta--Riverside The CVSP has been designed with its primary focus on residential and open space uses, with one variation. One version of the CVSP identifies a ten-acre site located adjacent to the primary entrance to the project site from Murrieta Hot Springs Road as a potential elementary school site (9.77 acres). With inclusion of the elementary school on the project site, the CVSP would permit a total of 500 residential units on approximately 100 acres (99.65 acres). Without the elementary school site, a total of 550 residential units would be permitted on 109.48 acres.	<b>Neg</b>	10/02/2000
2000091011	Carmel Bluff and Beach Access Improvement Project Carmel-by-the-Sea, City of Carmel--Monterey The City of Carmel-By-The-Sea proposes to implement shoreline improvements at six locations along Scenic Road between 10th Avenue and Martin Way to repair or protect beach access facilities and a public street/utilities from storm damage and ongoing erosion due to storm water runoff and wave protection.	<b>Neg</b>	10/02/2000
2000091017	Oakridge Private School Orange County Orange, Villa Park--Orange The proposed project is the establishment of Oakridge Private School, a private elementary school, grades Kindergarten through 8th, and includes a pre-school. The project is located in unincorporated Orange County within the City of Orange, Sphere of Influence (SOI). Records indicate that the project site was previously a Landfill site, which, since the 1960s has been closed.	<b>Neg</b>	10/02/2000

<b><u>Documents Received on Thursday, September 07, 2000</u></b>			
2000098070	English Spring Lake Clearing Chino Hills, City of Chino Hills--San Bernardino The project removes silt from the bottom of this two acre lake by utilizing a specially fabricated vacuum head which will pump the silt to bins for drying and hauling. Silt samples have been tested for toxic metal and hydrocarbons, and are in the non toxic range. Silt that is removed from the lake will be used as a agricultural recycled soil additive. The goal of the project is to remove lake bottom silt so that aquatic weeds are reduced or eliminated, water quality improves for fish and wildlife, and water retension capacities are maintained for flood control purposes.	<b>NOE</b>	
2000098071	Removal of Hazardous Trees Tahoe Conservancy --El Dorado The project consists of the felling of hazardous trees on Conservancy parcels to protect public and private property and to limit the State's liability. The hazardous trees will be felled by professional tree fellers, limbed and the slash treated by a mechanical wood chipper. The chips will be dispersed on site to a depth of no more than 2 inches on parcels with low fuel loading, or the slash/wood chips will be removed by the contractor and treated off site.	<b>NOE</b>	
2000098072	Aerospace Hall Remodel California Science Center Los Angeles, City of--Los Angeles The project will remodel an existing State-owned building at the California Science Center. The project is proposed to repair water leaks in the building and to provide Americans with Disability Act (ADA) upgrades. Work will be almost entirely confined to the interior and will include refurbishing the mechanical and electrical systems, replacing the existing lighting, adding new and remodeling existing toilets, adding interior partitions and adding several skylights to the windowless building. The building is not an historical structure.	<b>NOE</b>	
2000098073	Transfer of coverage to Placer County APN 98-314-07 (Olin) Tahoe Conservancy --Placer Project consists of the sale and transfer of 629 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	<b>NOE</b>	
2000098074	Pioneer Trail Hazard Reduction-3 Tahoe Conservancy --El Dorado The project consists of removing dead, dying and diseased trees, thinning suppressed trees, and selective brush reduction to promote increased health and vigor of the stand, reduce fire threat, and reduce insect and disease occurrence.	<b>NOE</b>

	addition, there will be a temporary sales office provided in a modular building to be located onsite until all units have been sold. Trees and shrubs will be removed in order to accomodate the buildings associated with the proposed project. The tentative map proposes to subdivide the land into 19 lots.		
2000091034	Pala Mesa Highlands Major Subdivision San Diego County, Department of Planning and Land Use San Diego--San Diego The project proposes Specific Plan Amendment, Reclassification (Rezone) and a major subdivision consisting of 207 single family detached lots, 2 parks, a permanent open space area, and 11 private street lots. Lot sizes range from 6,000 square feet to 25,000 square feet, with a total project size of 83.9 acres.	<b>NOP</b>	10/10/2000
1989052316	Use Permit 00-24 (Anderson Landfill), an amendment of Use Permit 68-89 Shasta County Anderson--SHASTA The proposeal is for approval of an amendment of the term of the use permit (Use Permit 68-89) to allow the continued use of a landfill for a 25-year term on approximately 270 acres with approximately 132 acres of fill area. the use permit originally had been conditioned to a 10-year term. As part of the use permit process, conditions that have already been complied with of that are now inappropriate due to final design of the facility will be amended or deleted. A Final EIR (FEIR 1-89, SCH# 89052316) was certified by the Shasta County Planning Commission on June 7, 1990, and at that time the Commission approved Use Permit 68-89. A copy of the "Executive Summary" section of the FEIR is attached for review and reference. The summary identifies potential impacts and mitigation. The new term would not result in any physical changes. No operational changes are being requested by this approval.	<b>Neg</b>	10/10/2000
1989052316	Use Permit 00-24 (Anderson Landfill), an amendment of Use Permit 68-89 Shasta County ANDERSON--SHASTA The proposal is for approval of an amendment of the term of the use permit (Use Permit 68-69) to allow the continued use of a landfill for a 25-year term on approximately 270 acres with approximately 132 acres of fill area.	<b>Neg</b>	10/10/2000
2000072066	Use Permit Application Number 2000-15 - Ron Fisher Stanislaus County Modesto--Stanislaus Request to expand an existing nut sorting/boxing/processing operation and install a 70 foot scale on a 16.26 acre site in the A-2-40 (General Agriculture) zoning district.	<b>Neg</b>	10/10/2000
2000091008	Waste Water Treatment Plant Expansion and Collection System Upgrades Delano, City of Delano--Kern The City of Delano owns and operates a Wastewater Treatment Plant(WWTP). The plant monitoring reports show that the plant is at or near capacity. Therefore, the City plans to expand the WWTP by 2.8 mgd., from 4.4 mgd to 7.2 mgd, using the same existing treatment trickling filter process. Also,as part of this project the City plans to construct a new sewer trunk line collection system in the eastside of the City to convey the anticipated flows to the wastewater treatment plant.	<b>Neg</b>	10/10/2000

<b><u>Documents Received on Monday, September 11, 2000</u></b>			
1999051024	General Plan Update Fresno County Update of current General Plan, including all Countywide topical elements, with the exception of the Housing Element.	<b>FIN</b>	
2000041012	An Alternative Program for Creating Mobile Source Emission Reduction Credits San Diego Air Pollution Control District --San Diego Approval of an alternative program for creating emission reduction credit pursuant to existing district Rule 27 - Banking of Mobile Source Emission Reduction Credits, only to be used as NOx offsets per federal New Source Review requirements. The Program will allow issuance of credits for replacing certain heavy-duty diesel trucks with low emission alternative fuel vehicles and enhanced maintenance, repowering of certain diesel marine engines with new lower-emitting diesel engines and the use of lower sulfur diesel fuel.	<b>FIN</b>	
1997052086	Parking Garage at Sacramento International Airport Sacramento County Sacramento--Sacramento The proposed project consists of the construction of a 6 level, 5,170 space parking garage at Sacramento International Airport. The project supersedes a proposal for a 5 level parking garage proposed in May 1997.	<b>NOP</b>	10/10/2000
2000092025	Guadalupe Creek Restoration Project, from Almaden Expressway to Masson Dam Santa Clara Valley Water District San Jose--Santa Clara The District is proposing to establish approximately 6 acres of riparian vegetation and approximately 13,000 linear feet of SRA cover in order to improve aquatic habitat in the lower reaches of Guadalupe Creek between Almaden Expressway and Masson Dam. The GCRP is intended to offset environmental impacts associated with future District projects. Approximately 5,915 linear feet of the SRA cover vegetation planted along Guadalupe Creek under the proposed project will serve as offsite mitigation for the Guadalupe River Project in Downtown San Jose (Downtown Project), if the Downtown Project is implemented. However, the GCRP is independent of the Downtown Project and will be implemented even if the Downtown Project is not realized. This EIR/EIS intends to incorporate the Guadalupe River Project General RE-Evaluation Report/Environmental Impact Report/Supplemental Environmental Impact Statement (GRR/EIR/SEIS) by reference to reduce duplication and paperwork associated with the GCRP EIR/EIS.	<b>NOP</b>	10/10/2000
2000092026	Elverta Specific Plan Sacramento County --Sacramento The project consist of adoption of the Elverta Specific Plan and related land use entitlements which will guide the development of 1,734 acres of land located in north central Sacramento County in a comprehensive and coordinated manner. The proposed Specific Plan is primarily residential in character: it includes 894 acres of urban residential uses and 552 acres of agricultural-residential uses with a total holding capacity of up to 4,950 units; 10 acres of commercial uses; 20 acres of school uses; 20 acres of park uses; 19 acres (former landfill site) for potential use as an equestrian center; and 219 acres to be used for drainageways,	<b>NOP</b>	10/10/2000

2000092023	Neale B. Penfold; Bay Street Apartments Eureka, City of Eureka--Humboldt The applicant requests approval of a coastal development permit for: the demolition of a two-story residence; construction of two 4-unit apartment complexes installed with a fire sprinkler system, and including four 2-car carports; and site drainage improvements that include installation of a sand & oil separator and construction of two earth berm erosion control dams. The subject property is 100' wide by 574' deep, being approximately 1.3 acres. The western 230' of the property is proposed for development under this coastal development permit. The eastern 281' of the property is wetlands transitioning to Third Slough, a tributary to Humboldt Bay. The property is bisected by the City/County boundary line, with the western 320' located in the Eureka City Limits and the eastern 254' located in the unincorporated area of Humboldt County. The property is also bisected by the coastal development permit jurisdiction boundary line between the City's primary permit jurisdiction and the State Coastal Commission's retained permit jurisdiction, the line being approximately 240' east of the Bay Street. It appears from the plans submitted that development will occur only on the portion of the property within the city limits and under the City's primary coastal development permit jurisdiction.	<b>Neg</b>	10/10/2000
2000092024	U. P. #00-13; Nextel Communications (Pacific Gas and Electric Co.) 2000099017	<p>Replacement Facility for the California Highway Patrol South Lake Tahoe Area Office</p> <p>California Highway Patrol, Department of South Lake Tahoe--El Dorado</p> <p>The proposed project consists of the construction of a replacement facility to serve as the South Lake Tahoe Area Office for the California Highway Patrol. The facility will consist of a 5, 000 square foot building and an attached 4, 500 square foot vehicle service building/parking garage. The proposed project also includes a detached utility room for radio equipment and an emergency generator, a radio tower, and above-ground fuel storage tanks. The facility will be built on an existing state-owned parcel that has a high capacity rating; the parcel is level and contains no wetlands or stream environment zone soils. The facility is needed to replace the existing Patrol office in South Shore, which does not meet current codes or serve the mission of this area.</p>	<b>NOD</b>	
2000099018	<p>Renovation of the California Department of Motor Vehicles Headquarters Building East Project</p> <p>Motor Vehicles, Department of Sacramento--Sacramento</p> <p>The proposed project is the Phase IV element of the multi-year renovation of the DMV Headquarters Building East in Sacramento. Project involves renovation of the first floor including hazardous materials abatement; seismic retrofit of the structural system; access compliance improvements; replacement of the fire and life safety systems; energy conservation improvements; providing a new exterior cladding system; relocating the day care and play yard; relocating the cafeteria to the first floor; and upgrading the electrical/mechanical systems. The project also includes other various improvements including conversion of one block of First Avenue to a pedestrian mall; conversion of Burrett Way to a loading dock area; relocating the main traffic entrance to 25th Street; improving circulation in the parking lots; replacing and improving landscaping access to the building; and providing additional security lighting. Project does not involve changes in DMV staffing or programs at this building.</p>	<b>NOD</b>	
2000098102	<p>Central California Gillnet Closure</p> <p>Fish &amp; Game #1</p> <p>--Marin, Santa Barbara</p> <p>If the Director determines if the use of gill or trammel nets is having an adverse impact on any population of any species of seabird, marine animal, or fish, the Director shall issue an order prohibiting or restricting the use, method of use, size, or materials used in the construction of either or both types of those nets in all or any part of District 10 or 17, or in all or any part of District 18 north of a line extending due west from Point Conception in Santa Barbara County for a specified period.</p>	<b>NOE</b>
